

ULTIMATE TIRE DRESSING QUICK SHINE

An even-spreading tire dressing that can be applied on wet or dry surfaces for a lasting shine.

Features & Benefits

Can Be Applied On Wet Surfaces

Quick Shine spreads evenly even on wet tires, reducing the overall time it takes to detail a vehicle.

Long Lasting Shine

Quick Shine has a high concentration of silicone which creates a long lasting shine.

Dries Quickly

This makes sure the product stays on the surface of the tire and prevents it from getting onto the surface of the vehicle while it is being driven. Drying quickly also helps prevent dust from sticking to the surface of the tire after it has been dressed.

Areas of Application

- Tires
- Engine Compartment
- Interior
- Plastic and Vinyl

Methods of Application

- Applicator Pad
- Pump-Up & Trigger Sprayer

Directions For Use**

Do Not Dilute

1. Simply apply the product using an applicator pad or spray evenly across a wet or dry surface.
